I thought the first year in Britain would be a very difficult time, but the school days were fantastic for me. My teachers answered all my questions, gave advice and helped me with college applications. I also met friends from different countries on campus. [Accommodation] and schools are conveniently located in the same building so I didn't have to worry about traffic jams. Overall, my English level has been greatly improved during the school year and I have been more integrated into life in the UK.

I arrived in the UK at the beginning of the pandemic, and it was a challenging and surprising time, but the atmosphere and support I received was exceptional.
